Siren (2-Way Talk)

Connect Hub Setup

1. Remove your hub, power and ethernet cables from the top portion of the box
2. Place you hub next to your internet router
3. Plug one end of the ethernet cable (supplied) in to the hub and the other end in to an open port on your router
4. Plug in the power adapter

You will notice several lights on the top of your Hub. Please wait 1-2 minutes
*until the lights power on (Note: not all of the lights will power on at this time.)*

Create Your Account

1. Make sure that Wi-Fi is enabled on your device you have downloaded the Constellation Connect app on and will be completing the setup
2. Open the Constellation Connect app
3. Select "New to Constellation?"
4. Follow the on-screen instructions to create your account and configure it to your hub. If the device is not listed, select "Scan Barcode" to begin the Hub setup process. You will be prompted to scan the barcode on the bottom of your Constellation Connect Hub.
5. When finished, the app will show the Constellation Connect dashboard
